

634 Gilbert Road COLEAMBALLY NSW

Farms 590, 593 and 595.
660.4 Ha* - 3268 ML of Coleambally GS Water

This collection of irrigation properties have a strong history of crop production and is well developed with bankless channel and border check irrigation.

Located to the South of the CICL network, each property can operate as a stand alone operation and are well suited to any number of irrigated winter and summer crops along with strategic livestock production.

Individual property features are as follows:
